

Matchmaker Exchange End User Agreement

To use Matchmaker Exchange (MME), each data querier agrees to the following:

1. To make no attempt to identify individual patients in any MME database
2. To enable all cases submitted for querying to be stored in the query-initiating database for future matching
3. To obtain permission from the source of the matching data before publishing or presenting the results of queries
4. To acknowledge the MME, and the specific MME service that supported any discoveries in publications, as appropriate
